

OMA announces Third Quarter 2016 Operational and Financial Results

Monterrey, Mexico, October 25, 2016— Mexican airport operator Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA (NASDAQ: OMAB; BMV: OMA), today reported its unaudited, consolidated results for the third quarter of 2016.¹

Third quarter 2016 summary

OMA generated solid results in the third quarter of 2016. The sum of aeronautical and non-aeronautical revenues rose 28.4%. The increase in aeronautical revenues reflects the initiatives to develop new routes, a 12.2% increase in passenger traffic volumes, and the increase in tariffs in the second quarter of 2016. The increase in non-aeronautical revenues principally reflects the expansion of hotel services as part of OMA's diversification activities. Adjusted EBITDA rose 38.3% with an Adjusted EBITDA margin of 66.8%. Operating income rose 47.9% and net income increased 59.4%.

- Twelve new routes opened in the quarter, including 10 domestic and two international routes.
- Aeronautical revenues increased 32.0%, principally as a result of the growth in passenger traffic and an increase in specific tariffs in 2Q16.
 - Aeronautical revenues per passenger increased 17.6% to Ps. 205.5.
- Non-aeronautical revenues increased 18.4%, principally as an indirect result of increased passenger traffic and the performance of the Hilton Garden Inn.
 - Non-aeronautical revenues per passenger increased 5.6% to Ps. 66.0.
- Total operating costs and expenses increased 14.3%, below the rate of revenue growth, resulting in a 47.9% increase in operating income.
- Adjusted EBITDA² increased 38.3% to Ps. 931 million. The Adjusted EBITDA margin reached 66.8%, up 479 basis points.
- Consolidated net income increased 59.4% to Ps. 487 million. Earnings were Ps. 1.23 per share, or US\$ 0.50 per American Depositary Share (ADS).
- Total Capex, major maintenance, and other smaller expenditures to meet Master Development Program (MDP) commitments and strategic investments, were Ps. 134 million.

² Adjusted EBITDA excludes the non-cash maintenance provision, construction revenue, and construction expense. OMA provides a full reconciliation of Adjusted EBITDA to Net Income in the corresponding section of this report; see also the Notes to the Financial Information.

3Q16 Operating Results

Passenger Traffic, Flight Operations, and Cargo Volumes

The total number of flight operations (takeoffs and landings) increased 3.8% to 89,451 operations. Domestic flight operations increased 4.8%, and international operations decreased 2.9%.

Total passenger traffic increased 12.2% (+558,573 passengers). Of total passenger traffic, 89.0% was domestic, and 11.0% was international. Commercial aviation accounted for 98.4% of passenger traffic. Monterrey generated 50.9% of passenger traffic, Culiacán 8.6%, and Chihuahua 7.3%.

Domestic passenger traffic increased 14.2% (+569,956 passengers). Eleven airports recorded growth, with the largest increases in: Monterrey (+13.2%; +264,595 passengers), as a result of increased traffic on the Mexico City, Guadalajara, and Tijuana routes; Ciudad Juárez (+31.1%; +72,580), as a result of increased traffic on the Mexico, Monterrey, and Guadalajara routes; Culiacán (+18.9%; +69,021), as a result of increased traffic on the Tijuana route; and Chihuahua (+22.1%; +62,625) as a result of increased traffic on the Mexico City and Guadalajara routes.

Ten domestic routes opened during the quarter, and three closed.

Durango	Hotel Promotion	1
Reynosa	Restaurant	1
Acapulco, Ciudad Juárez, Monterrey, and Torreón	Retailer	4

Hotel Services

- NH Collection Terminal 2 Hotel had a 78.1% occupancy rate, with a 13.6% increase in the average room rate to Ps. 2,149 per night. Revenues increased 4.5% to Ps. 55 million.
- The Hilton Garden Inn had a 70.1% occupancy rate, with an average room rate of Ps. 2,017. Revenues reached Ps. 21 million.

OMA Carga Operations

OMA Carga increased both air and land freight logistics activities, recording a 16.4% increase in revenues to Ps. 36 million.

Industrial Services

OMA VYNMSA Aero Industrial Park: The two warehouses in operation generated Ps. 1.4 million in revenues in 3Q16.

Consolidated Financial Results

Revenues

Aeronautical revenues increased 32.0% to Ps. 1,055 million, principally as a result of passenger volume increases and increases in specific tariffs in 2Q16, as well as the strengthening of the dollar against the peso and an increase in the number of operations. Revenue from domestic passenger charges increased 42.9%, revenue from international passenger charges increased 19.9%, and other aeronautical services revenue increased 7.4%.

Monterrey contributed 48.8% of aeronautical revenues, Culiacán 8.8%, Chihuahua 7.7%, and Mazatlán 5.7%.

Aeronautical revenue per passenger was Ps. 205.5, an increase of 17.6%.

Commercial activities contributed an incremental Ps. 16 million (+10.7%). The line items that had the largest variations were:

- Parking revenues (+8.3%; +Ps. 4 million), as a result of the increase in passenger volumes and an increase in long-term parking capacity at the Monterrey airport in 4Q15.
- Restaurants (+23.2%; +Ps. 4 million), principally as a result of increased participation revenues from the effect of higher passenger volumes and openings since 3Q15, including one new restaurant in 3Q16.
- Revenue from retailers (+20.6%; +Ps. 4 million), as a result of increased passenger traffic, new stores, and changes in the mix of stores since 3Q15, including four new stores in 3Q16.
- Car rental (+23.6%; +Ps. 4 million), as a result of increased participation revenues and two new contracts in the Zihuatanejo airport in 2Q16.

Diversification activities contributed an additional Ps. 27 million (+29.3%). The most important contributions came from hotel services (+36.8%; +Ps. 20 million) and OMA Carga (+16.4%; +Ps. 5 million).

Complementary activities generated an increase of Ps. 10 million (+21.6%), principally because of higher revenues from checked baggage screening.

Construction revenues were Ps. 102 million and represent the value of improvements to concession assets made during the quarter. They are equal to construction costs recognized, and generate neither a gain nor a loss. (See *Notes to the Financial Information*.)

Total revenues, including construction revenues, increased 30.1% to Ps. 1,497 million in 3Q16.

Costs and Operating Expenses

The total **cost of airport services and general and administrative expenses**, excluding those related to the hotels and industrial park, increased 7.7%, largely because of an increase in subcontracted services.

Hotel costs and expenses rose Ps. 9 million, principally as a result of expenses for the Hilton Garden Inn hotel, which was only partially operational in 3Q15.

The **major maintenance provision** decreased 18.8% compared to 3Q15, as a result of an updating of the variables used to estimate the required provision. The balance of the maintenance provision as of September 30, 2016 was Ps. 734 million, compared to Ps. 604 million at the end of 2015.

Construction costs are equal to construction revenues and generate neither a gain nor a loss.

The **airport concession tax** increased 26.3% as a result of the growth in revenues.

The **technical assistance fee** increased 56.3% to Ps. 35 million, as a result of the growth in EBITDA. (See *Notes to the Financial Information for the calculation base*).

Other (Income) Expense, Net increased Ps. 10 million, principally as the result of the gain on sale of some vacant land outside the Monterrey Airport perimeter and which was not required for future aeronautical use.

As a result of the foregoing, **total operating costs and expenses** increased 14.3% to Ps. 696 million.

Material and Subsequent Events

OMA included in Dow Jones Sustainability Index (DJSI) for Emerging Markets: OMA was selected for inclusion in the Dow Jones Sustainability Index (DJSI) for Emerging Markets, as selected by S&P Dow Jones and RobecoSAM.

Change in ownership of OMA's strategic partner: On October 6, 2016, Groupe ADP (ADP) informed the Company of its decision to exercise its option to exchange its 25.5% shareholding in Servicios de Tecnología Aeroportuaria S.A. de C.V. (SETA), the strategic partner of OMA, for OMA B shares held by SETA, which represent 4.3% of OMA's total equity, in order to sell these shares through an international private placement. On October 10, 2016, ADP announced the completion of the sale of all the Series B shares received as a result of the option exercise. As a result, Empresas ICA, S.A.B. de C.V., through its wholly-owned subsidiary Controladora de Operaciones de Infraestructura, S.A. de C.V. (CONOISA), becomes the sole shareholder of SETA, and continues to hold directly and indirectly 14.3% of OMA. SETA will continue to exercise its rights as OMA's strategic partner, and continue to provide Technical Assistance to the Company in accordance with the Technical Assistance and Technology Transfer Agreement.

OMA (NASDAQ: OMAB; BMV: OMA) will hold its 3Q16 earnings conference call on October 26, 2016 at 11 am Eastern time, 10 am Mexico City time.

The conference call is accessible by calling **1-800-279-9534** toll-free from the U.S. or **1-719-325-2250** from outside the U.S. The conference ID is **9050202**. A taped replay will be available through November 2, 2016 at **1-844-512-2921** toll free or **+ 1-412-317-6671**, using the same ID.

The conference call will also be available by webcast at <http://ir.oma.aero/events.cfm>.

Notes to the Financial Information

Financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS"), and presented in accordance with IAS 34 "Interim Financial Reporting."

Adjusted EBITDA: OMA defines Adjusted EBITDA as EBITDA less construction revenue plus construction expense and maintenance provision. Construction revenue and construction cost do not affect cash flow generation and the maintenance provision corresponds to capital investments. Adjusted EBITDA should be not considered as an alternative to net income, as an indicator of our operating performance, or as an alternative to cash flow as an indicator of liquidity, or as an alternative to EBITDA.

Adjusted EBITDA margin: OMA calculates this margin as Adjusted EBITDA divided by the sum of aeronautical revenue and non-aeronautical revenue.

Aeronautical revenues: are revenues from rate-regulated services. These include revenue from airport services, regulated leases, and access fees from third parties to provide complementary and ground transportation services. Airport service revenues include principally departing domestic and international passenger charges (TUA), landing fees, aircraft parking charges, passenger and carry-on baggage screening, and use of passenger jetways, among others. Revenue from fourth party access fees to provide complementary services include revenue sharing for ramp services, aircraft towing, water loading and unloading, cabin cleaning, electricity supply, catering, security, and aircraft maintenance, among others. Revenues from regulated leases include principally rental to airlines of office space, hangars, and check-in and ticket sales counters. Revenues from access charges for providers of ground transportation services include charges for taxis and buses.

Airport Concession Tax (DUAC): This tax, the *Derecho de Uso de Activos Concesionados*, is equal to 5% of gross revenues, in accordance with the Federal Royalties Law.

American Depositary Shares (ADS): Securities issued by a U.S. depository institution representing ownership interests in the deposited securities of non-U.S. companies. Each OMA ADS represents eight Series B shares.

Capital expenditures, Capex: includes investments in fixed assets (including investments in land, machinery, and equipment) and improvements to concessioned properties.

Cargo unit: equivalent to 100 kg of cargo.

Checked Baggage Screening: During 2012, OMA began to operate checked baggage screening in its 13 airports in order to increase airport security and in compliance with the requirements of the Civil Aviation General Directorate (DGAC). This screening uses the latest technology and is designed to detect explosives in checked baggage. The cost of maintenance of the screening equipment is considered a regulated activity and will be recovered through the maximum rates, while the operational aspects are assessed as a non-regulated service charge. In accordance with the Civil Aviation Law and the regulations issued by the DGAC, the primary responsibility for damages and losses resulting from checked baggage lies with the airline. Notwithstanding the foregoing, OMA may be found jointly liable with the airline through a legal proceeding if and when all of the following elements are proven: a) occurrence of an illegal act, b) caused by the willful misconduct or bad faith of our subsidiary OMA Servicios Complementarios del Centro Norte, S.A. de C.V., and c) related to or occurring during the baggage screening undertaken by OMA Servicios Complementarios del Centro Norte, S.A. de C.V.

Construction revenue, construction cost: IFRIC 12 “Service Concession Arrangements” addresses how service concession operators should apply existing International Financial Reporting Standards (IFRSs) to account for the obligations they undertake and rights they receive in service concession arrangements. The concession contracts for each of OMA’s airport subsidiaries establishes that the concessionaire is obligated to carry out construction or improvements to the infrastructure transferred in exchange for the rights over the concession granted by the Federal Government. The latter will receive all the assets at the end of the concession period. As a result the concessionaire should recognize, using the percentage of completion method, the revenues and costs associated with the improvements to the concessioned assets. The amount of the revenues and costs so recognized should be the price that the concessionaire pays or would pay in an arm’s length transaction for the execution of the works or the purchase of machinery and equipment, with no profit recognized for the construction or improvement. The change does not affect operating income, net income, or EBITDA, but does affect calculations of margins based on total revenues.

Earnings per share and ADS: use the weighted average of shares or ADS outstanding for each period, excluding Treasury shares from the operation of the share purchase program.

EBITDA: For the purposes of this report, OMA defines EBITDA as net income minus net comprehensive financing income, taxes, and depreciation and amortization. EBITDA should be not considered as an alternative to net income, as an indicator of our operating performance, or as an alternative to cash flow as an indicator of liquidity. Our management believes that EBITDA provides a useful measure of our performance that is widely used by investors and analysts to evaluate our performance and compare it with other companies. However, it should be noted that EBITDA is not defined under IFRS, and may be calculated differently by different companies.

Employee Benefits: IFRS 19 (modified) “Employee Benefits” requires that cumulative actuarial gains and losses from pension obligations be recognized immediately in comprehensive income. These gains and losses arise from the actuarial estimates used for calculating pension liabilities as of the date of the financial statements.

IAS 34 “Interim Financial Reporting”: This norm establishes the minimum content that interim financial statements should include, as well as the criteria for the formulation of the financial statements.

International Financial Reporting Standards (IFRS): Financial statements and other information are presented in accordance with IFRS and their Interpretations. The financial statements for the year ended December 31, 2010 were the last statements prepared in accordance with Mexican Financial Reporting Standards.

Major Maintenance Provision: represents the obligation for future disbursements resulting from wear and tear or deterioration of the concessioned assets used in operations including: runways, platforms, taxiways, and terminal buildings. The provision is increased periodically for the wear and tear to the concessioned assets and the Company’s estimates of the disbursements it needs to make. The use of the provision corresponds to the outflows made for the conservation of these operational assets.

Master Development Plan (MDP): The investment plan agreed to with the government every five years, under the terms of the concession agreement. These include capital investments and maintenance for aeronautical activities, and exclude commercial and other non-aeronautical investments. The investment horizon is 15 years, of which the next five years are committed investments.

Maximum Rate System: The Ministry of Communications and Transportation (SCT) regulates all our aeronautical revenues under a maximum rate system, which establishes the maximum amount of revenues per workload unit (one terminal passenger or 100kg of cargo) that may be earned by each airport each year from all regulated revenue

sources. The concessionaire sets and registers the specific prices for services subject to regulation, which may be adjusted every nine months as long as the combined revenue from regulated services per workload unit at an airport does not exceed the maximum rate. The SCT reviews compliance with maximum rates on an annual basis after the close of each year.

NH Collection T2 hotel: The NH Collection hotel in Terminal 2 of the Mexico City International Airport.

Non-aeronautical revenues: are revenues that are not subject to rate regulation. These include revenues derived from commercial activities such as parking, advertising, car rentals, leasing of commercial space, freight management and handling, and other lease income, among others; diversification activities, such as the Hotel NH Terminal 2; and complementary activities, such as checked baggage screening.

Passengers: all references to passenger traffic volumes are to terminal passengers.

Passengers that pay passenger charges (TUA): Departing passengers, excluding connecting passengers, diplomats, and infants.

Passenger charges (TUA, *Tarifa de Uso de Aeropuerto*): are paid by departing passengers (excluding connecting passengers, diplomats, and infants). Rates are established for each airport and are different for domestic and international travel.

Prior period comparisons: unless stated otherwise, all comparisons of operating or financial results are made with respect to the comparable prior year period. Balance sheet numbers are compared to the balances at the end of the prior year.

Strategic investments: refers only to those investments that are additional to those in the Master Development Plan.

Technical Assistance Fee: Until June 13, 2015, this fee was charged as the higher of US\$3.0 million per year or 5% of EBITDA before technical assistance. With the signing of an Amendment to the Technical Assistance and Technology Transfer Agreement effective June 14, 2015, the annual fee is charged as the higher of US\$ 3.0 million per year or 4% of EBITDA for the third three years and 3% for the final two years of the agreement. For the purposes of this calculation, consolidated EBITDA before technical assistance takes into account only the subsidiaries holding the airport concessions or that provide personnel services directly or indirectly to the airports.

Terminal passengers: includes passengers on the three types of aviation (commercial, charter, and general aviation), and excludes passengers in transit.

Unaudited financials: financial statements are unaudited statements for the periods covered by the report.

Workload Unit: one terminal passenger or one cargo unit.

This report may contain forward-looking information and statements. Forward-looking statements are statements that are not historical facts. These statements are only predictions based on our current information and expectations and projections about future events. Forward-looking statements may be identified by the words "believe," "expect," "anticipate," "target," "estimate," or similar expressions. While OMA's management believes that the expectations reflected in such forward-looking statements are reasonable, investors are cautioned that forward-looking information and statements are subject to various risks and uncertainties, many of which are difficult to predict and are generally beyond the control of OMA, that could cause actual results and developments to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to, those discussed in our most recent annual report filed on Form 20-F under the caption "Risk Factors." OMA undertakes no obligation to update publicly its forward-looking statements, whether as a result of new information, future events, or otherwise.

About OMA

Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA, operates 13 international airports in nine states of central and northern Mexico. OMA's airports serve Monterrey, Mexico's third largest metropolitan area, the tourist destinations of Acapulco, Mazatlán, and Zihuatanejo, and nine other regional centers and border cities. OMA also operates the NH Collection Hotel inside Terminal 2 of the Mexico City airport and the Hilton Garden Inn at the Monterrey airport. OMA employs over 1,000 persons in order to offer passengers and clients airport and commercial services in facilities that comply with all applicable international safety, security, and ISO 9001:2008 environmental standards. OMA is listed on the Mexican Stock Exchange (OMA) and on the NASDAQ Global Select Market (OMAB). For more information, visit:
