OMA reports on the impact of the suspension of operations of Líneas Aéreas Azteca

Monterrey, Mexico, March 29, 2007—Mexican airport operator Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA, reported on the impact on its airports of the suspension of operations of Líneas Aéreas Azteca (Azteca), ordered by the Ministry of Communications and Transportation (SCT).

The SCT, through the Bureau of Civil Aviation (DGAC), announced the suspension of Azteca, effective March 26, 2007. The DGAC determined that “the company does not meet the necessary requirements to continue operating.”

Azteca accounted for 3.7% of OMA's total passengers and 3.6% of total aeronautical revenues during 2006. Azteca currently has no debts outstanding to OMA.

Azteca operated at six airports: Acapulco, Ciudad Juárez, Chihuahua, Culiacán, Monterrey, and Zacatecas. Monterrey and Ciudad Juárez reported the largest number of passengers transported by this airline. At the time of the suspension, Azteca operated seven domestic routes at these airports. Of these, the only segments not served by other airlines are Zacatecas-Ciudad Juárez and Aguascalientes-Culiacán. OMA anticipates that most of the air traffic previously handled by Azteca will be picked up by other airlines.

The DGAC announced that Azteca, which began operations in June 2001, has 90 calendar days to correct the operating deficiencies, which would allow it to resume operations.
